

## **CheckLight participates in "Israel Cleantech" 2009 Event in London , UK**

**London, October 23, 2009** - CheckLight Ltd, a Leading provider of innovative bioluminescence-based solutions for rapid water quality testing and online monitoring, concluded its participation in Israel Cleantech 2009 Event, took place in London, UK.

Organized by Israel NewTech, Israel Export institute and the Embassy of Israel in London, the event provided a platform for B2B meetings between delegation of 16 young Israeli Cleantech companies and UK potential customers, investors and business partners.

"The Israel Cleantech event provided us good opportunity to be exposed to major water UK utilities, as well as to potential investors", said CheckLight's CEO, Eyal Mor, "We established some promising relations with potential partners, which we believe will evolve into business relations in the near future".

### **About CheckLight**

Founded in 2001 by Dr. Nirit Ulitzur, CheckLight Ltd. is a private company, based in Israel. Since its foundation CheckLight has engaged extensively in developing and marketing technologies for drinking water quality testing applications.

In early 2008 WhiteWater ([www.w-water.com](http://www.w-water.com)), a leading Israeli water technologies company, has become a strategic investor in CheckLight.

CheckLight's products are being successfully used by China's Environmental Protection Ministry, leading water labs in Europe and North America, the Israeli National Water company, and more.
